CARBO-XL

40th EDITION OF THE CARBO SERIES

CarboSciHeTech-2026

Integrative translation in **Carbo**hydrate research towards a
changing world in Food, **Science**, **Health**, and **Technology**

25-27 November 2026

CSIR-CFTRI, Mysuru

ABOUT THE CONFERENCE

Four decades of glycoscience, One changing world.

Since 1984, the CARBO series has built a platform where glycoscientists and industrialists meet to push carbohydrate research forward. CARBO-XL marks the 40th edition of that series, an international conference on integrative translation in carbohydrate research across food science, health and technology. It brings together academicians, scientists, technologists and industrialists working across the sugar chain: from molecule to marketplace.

About ACCTI

ACCTI is a professional scientific association dedicated to carbohydrate research and technology. It connects researchers, academicians, technologists and industry professionals working in glycoscience and carbohydrate applications. It organises national and international conferences including CARBO series and promotes scientific collaborations. ACCTI also publishes 'Trends in Carbohydrate Research (e-TCR)' and recognizes researchers through various instituted awards.

About CSIR-CFTRI, Mysuru

CSIR-Central Food Technological Research Institute (CFTRI), Mysuru, is a premier national research institute dedicated to Food science, Technology, and Nutrition. Established in 1950, it advances multidisciplinary research in food, nutrition, biotechnology, and allied areas for societal and industrial applications.

About AFST(I)

The Association of Food Scientists and Technologists India (AFSTI) established in 1957, is India's leading professional association for food scientists and technologists. Headquartered at CSIR-CFTRI, Mysuru, AFSTI promotes excellence in food science research, knowledge exchange, conferences and professional development courses.
